

SAINT GERMAIN

CONSOLE

A rigorous geometry defines the "statement" base of the Saint Germain console, which is both functional and decorative in equal measure. The top can be available in many different versions: ten types of marble for who want something of very sophisticated, or four types of wood for a design more minimal. The base is always in wood with a decorative bronze metal support. Made by Oasis.

Top	Wood and Marble
Essence	Moka Oak, Sand Oak, Black Oak.
Dimensions	W27.5" x D26.3" x H30.3"
